SUMMARY

Data & AI Engineer skilled in Python, SQL, PySpark, ETL, Airflow, FastAPI, Azure OpenAI, and Pinecone. Experienced in building production-oriented data pipelines, REST APIs, AI-powered applications, and search systems, with hands-on experience across AWS and Azure.

TECHNICAL SKILLS

- Data Engineering: ETL Pipelines, Data Validation, Deduplication, Data Matching, EDA, Apache Airflow, PySpark
- Programming & Databases: Python (Pandas, NumPy), PySpark, SQL (PostgreSQL, MySQL, BigQuery)
- AI & Application Development: FastAPI, Pydantic, Gradio, Azure OpenAI, Pinecone, LLM Applications, Prompt Engineering
- Cloud & Deployment : AWS S3, AWS Glue, Azure Batch, Render
- Visualization & Reporting: Power BI, MS Excel (Advanced), PowerPoint
- Tools: GitHub, Docker

PROFESSIONAL EXPERIENCE

TRADEINDIA

Noida, India

Junior Data Scientist

Feb 2026 – Present

- Designed and deployed a PySpark-based deduplication pipeline to match large-scale B2B datasets, cutting processing time by ~80%.
- Automated recurring workflows using Apache Airflow, AWS Glue, and Azure Batch, improving pipeline scalability and reducing manual effort.
- Built a FastAPI vector search API enabling AI-driven semantic product search across the company's product catalog, using Azure OpenAI embeddings, Pinecone, and dynamic metadata filtering.
- Implemented Generative AI-based long-tail keyword generation workflows to improve product discoverability and search relevance.

TRADEINDIA

Noida, India

Intern – Trainee-Data Science

Aug 2025 – Feb 2026

- Cleaned and validated scraped external datasets, matching records against internal company data to identify and tag qualified leads for the sales team.
- Manually performed this data matching and tagging process (~1 day per cycle), directly feeding sales outreach and contract acquisition efforts.
- Collaborated with stakeholders to handle data extraction requests and deliver production-ready data solutions.

TATA STEEL LIMITED

Jamshedpur, India

Intern - RDE Norms Analysis project

May 2023 – July 2023

- Analyzed impact of emission norms on product demand to identify shifts in customer preferences
- Evaluated product alignment with regulatory changes to identify potential market opportunities.
- Generated insights to support sales strategy, identifying segments with ~10% growth potential

EDUCATION

BIRLA INSTITUTE OF TECHNOLOGY

Ranchi, India

Bachelor of Business Administration, Cumulative GPA: 7.29

2021-2024

VIVEK VIDAYALAYA

Jamshedpur, India

Central Board of Secondary Education (CBSE)

2019 – 2021

PROJECTS

RESEARCHPILOT AI — WEB RESEARCH ASSISTANT [LINK](#)

Python, Gradio, Groq/OpenAI-compatible API, Tavily, BeautifulSoup, Pydantic, GitHub, Render

- Built an AI-powered web research assistant that converts user questions into targeted search queries, retrieves web sources, scrapes relevant content, and generates structured research reports using an LLM.
- Implemented a modular research pipeline with query planning, URL deduplication, web scraping, source attribution, confidence scoring, and Pydantic-based response validation.
- Integrated Tavily Search and Groq's OpenAI-compatible API, with configurable LLM models and environment-based API credentials for production deployment.
- Deployed the application on Render with a public web interface using Gradio and production-ready environment configuration.

CERTIFICATIONS AND TRAINING

- **Data Analytics** – PW Skills (Python, SQL, Power BI, Excel) SQL Intermediate (HackerRank), Excel for Data Analysis (LinkedIn).
- **Strategy & Visualization**: Business Analytics & Decision Making (BIT Mesra), Product Management (Udemy), Data Visualization Job Simulations (TATA, Accenture, Deloitte).

ADDITIONAL INFORMATION

Media Head – Research and Development Society

- Led media and communications for events by managing content and coordinating campaigns to improve engagement
